

SALT AND TRACE ELEMENTS

Summer – Autumn - Winter

Salt and trace element supplementation is essential in preventing deficiencies which can lead to poor zootechnical performance. Zinc and manganese intake promotes growth and helps maintain strong and healthy hooves, preventing lameness. Selibloc also contains other key minerals, ensuring livestock's diets remain balanced.

FEED APPLICATIONS

Average daily intake: 40g per bovine/horse,
5g per sheep/goat

INGREDIENTS

Sodium chloride - Calcium carbonate -
Premixture of additives

ANALYTICAL CONSTITUENTS

Sodium.....39%
Calcium.....0,2%

ADDITIVES – TRACE ELEMENTS (mg per kg)

Zinc (zinc oxide).....2000
Manganese (manganous oxide).....1000
Copper (copper sulphate pentahydrate).....200
Iodine (calcium iodate anhydrous).....100
Selenium (sodium selenite).....10

12 kg or 25 kg
