

**RICH IN TRACE ELEMENTS;
CONTAINS ORGANIC SELENIUM**

Summer - Autumn - Winter

Feed tends to contain low amounts of trace elements (especially corn silage). Therefore, SODIOLIGO blocks (INRA certified) are an essential supplement and provide livestock with the minerals that they require, whether they are being kept indoors or put out to pasture. Rich in iodine and selenium, it optimises the daily intake and balance of minerals. The bioavailability of the organic selenium is three times higher than sodium selenite and it is stored more efficiently in the body. SODIOLIGO can therefore be used when required (fertility, reproduction, foetal growth, end of gestation/start of lactation, etc).

FEED APPLICATIONS

Average daily intake: 60g per bovine/equine, 10g per goat

INGREDIENTS

Sodium chloride - Calcium carbonate – Magnesium oxide
Premixture of additives- Cane molasses.

ANALYTICAL COMPOSITION

Calcium.....	2,5%
Magnesium.....	2%
Sodium.....	32,5%

ADDITIVES – TRACE ELEMENTS (mg per kg)

Zinc (zinc oxide).....	10000
Manganese (manganous oxide).....	8250
Copper (copper sulphate pentahydrate).....	1500
Iodine (calcium iodate anhydrous).....	200
Selenium.....	20
Of which sodium selenite.....	18
Of which selenomethionine.....	2
Cobalt (cobalt (II) carbonate coated pellets).....	13

12 kg or 20 kg

GOATS

HORSES

CATTLE
