

## PARASITE RISK MANAGEMENT (STRONGYLES, FLUKES, ETC.)

**11 kg**

### Spring - Summer - Autumn

Many farms encounter internal parasite infestations when livestock is out grazing or stabled. This parasite pressure can lead to slower growth as well as reduced milk yields and appetite. SodiVert'Actif is enriched with plant extracts (wormwood, garlic, thyme, tansy and fenugreek) that, when combined with minerals and trace elements in a lick, help manage parasite risks.

#### FEED APPLICATIONS

Average daily intakes: 120 g per cow, 25 g per goat, 15-20 g per sheep, 50-100 g per horse

#### INGREDIENTS

Calcium carbonate, sodium chloride, magnesium oxide, cane molasses, pre-mix supplements.

#### ANALYTICAL COMPOSITION

Phosphorus.....	0%
Calcium.....	14,1%
Magnesium.....	11,7%
Sodium.....	11,7%

#### ADDITIVES (mg per kg)

Aromatic compounds (coded natural botanical products).....	20000
---	-------

#### TRACE ELEMENTS (mg per kg)

Zinc (zinc oxide).....	4850
Manganese (manganous oxide).....	3900
Iodine (anhydrous calcium iodate).....	50
Cobalt (cobalt carbonate-coated granules).....	50
Selenium (sodium selenite).....	10

#### SHEEP

#### GOATS

#### HORSES

#### CATTLE
